

Tocotrienols

Tocotrienols are members of the vitamin E family. They are natural compounds found in a number of vegetable oils, grains, nuts and seeds. Unlike tocopherols, tocotrienols are unsaturated and possess an isoprenoid side chain. While tocopherols are lipophilic in nature and are found in association with lipoproteins, fat deposits and cellular membranes, and protect the polyunsaturated fatty acids from peroxidation reactions, the unsaturated chain of tocotrienol allows an efficient penetration into tissues that have saturated fatty layers, such as the brain and liver. This distinct chemical structure enables its cellular uptake in biological systems to be up to seventy times that of tocopherols.⁽¹⁾ Hence, tocotrienols possess neuroprotective and hepatoprotective properties, and provide documented immune and cardiovascular support as well.

Supplement Facts

Serving Size: 1 Capsule

	Amount Per Serving	% Daily Value
Vitamin E (d-alpha-tocopheryl acetate)	35 IU	117%
Tocotrienols (from annatto)	35 mg	*

* Daily Value not established

Other ingredients: Cellulose, capsule shell (gelatin and water) silica and magnesium stearate (vegetable source).

This product is gluten and dairy free.

RECOMMENDATION: One (1) to two (2) capsules each day as a dietary supplement or as otherwise directed by a healthcare professional.

CAUTION: Tocotrienols should not be taken with supplements containing iron in order to prevent oxidation.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.
Sealed with an imprinted safety seal for your protection.

Product # 1420 Rev. 03/16
