Functional Medicine: GI, Thyroid & Adrenal Assessment *Case Study Reviews*

Sunday, May 20, 2018
El Segundo, CA

Presented by: **Jack Monaco, MD**
CE credits have been applied for

This educational seminar will focus on utilizing Functional Medicine to optimize health using patient symptoms as a guide to the underlying cause of specific conditions.

Healthcare professionals will learn more about autoimmunity, leaky gut and how to address symptoms and conditions with diet and nutrients, as well as specific testing that should be done.

Functional Thinking: How to Achieve Healing in the 21st Century

Understand the basis of functional medicine and the functional approach to addressing dysfunction using a proactive wellness model as opposed to a disease-based model.

Conditions That Should Make You Think of the Gut

Learn more about autoimmune thyroid and its relationship to adrenal and thyroid function.

Hormone Imbalance in Adrenal & Thyroid Dysfunction

Identify normal thyroid and adrenal function, the interconnections between them and the dysfunction often seen, and often missed, by conventional doctors when symptoms are present but the lab tests are normal.

Case Studies in Adrenal and Thyroid Dysfunction

View a presentation of case studies illustrating common patient symptoms and how they were addressed using diet and nutritional interventions.

Dr. Monaco completed his undergraduate education at Drew University in Madison, NJ. He did 1 year of research in Cardiovascular/Cerebrovascular Physiology and 4 years of medical training at the Bowman Gray School of Medicine, earning his Medical Degree. Dr. Monaco completed a residency in Obstetrics & Gynecology at St. Francis Hospital & Medical Center in Hartford, CT, a specialty which he practiced for nearly 35 years. In 2007, he completed a Fellowship in Anti-Aging, Functional and Metabolic Medicine.

Dr. Monaco has nearly 20 years of experience with bioidentical hormones. He has lectured extensively throughout the United States, Canada and the Middle East on topics including hormone restoration for men and women, adrenal and thyroid dysfunction, functional medicine, weight loss and most recently the relationship of hormones with cardiometabolic disease.

He is a member of the Teaching Faculty for the American Academy of Anti-Aging Medicine, an Oral Board Examiner and a Clinical Assistant Professor of Family Medicine at the University of New England College of Osteopathic Medicine. He is the Medical Director of the Nashville Hormone and Integrative Medicine Center as well as the Division of Hormone Restoration at The Hypertension Institute. He is also the Associate Medical Director of Integrative Medicine at The Hypertension Institute, Nashville, TN. Dr. Monaco maintains a private practice as part of the St. Thomas Medical Group at St. Thomas Hospital West, Nashville, TN.
